

THANK YOU

It was a pleasure meeting with you. We appreciate the opportunity to present Koolriclum, KoolAR, and Bridge Da Gap to the Brooklyn Superintendent and various Principals in your school district.

As discussed, Bridge DA Gap is a comprehensive character-building solution that is all its own. Today's students, living in our inner cities, are faced with a number of challenges including problems at home, the increased likelihood of never obtaining a high school diploma, gang violence, bullying, drug abuse, peer pressure and low self-esteem.

Students are provided with a set of learning videos that are fun, engaging and entertaining. All content is developed and measured against the common core standards

THE PLACE TO LEARN AND PREPARE FOR YOUR CHILD'S FUTURE

KOOLriculum reinforces retention by providing students with multiple opportunities to retain and comprehend information using visual, auditory and kinesthetic (hands-on) activities.
